About Us

The ever growing global demand for electrical power & thus for safety, electrical control panels, is likely to expand further in the coming years. Achieving a rapid pace in the developing regions, primarily the Asian territories, we are the leading manufacturer, exporter, supplier and trader of all types of electrical control panels. We are also engaged in Motor Control Center Panels, Power Control Panels, Cable ladders and Cable trays of all sorts.

Aspiring to achieve the maximum levels of customer satisfaction, in-house designing is done to facilitate the electronic control, distribution and automation requirements. Started with the small bus bar panels with a small manual setup 15 years ago, our MD, Mr. SHUBH ADESH MITTAL, worked day and night and year after year, installed new hydraulic machineries, latest of that period and new products were innovated.

Key Facts

Our Products

Mimic Panel

Relay Control Panels

Bus Ducts

DOL Starter Panel

HVAC Panels

Automation Panels

Stainless Steel Panels

Pneumatic Control Panels

Motor Control Center (MCC) Panel

AC And DC Drive Panel

Automatic Power Factor Correction

ACB Panels

Main Power Control Center

Mimic Control Panels

Changeover Panels

Electrical Bus Ducts

ADDRESS

Plot No 45, Sector-1, Phase-i,
Hsiidc Industrial Area, Saha,
Ambala, Ambala Cantt,
Haryana, India (133104).
